

## FORM 5 – Team Information Questionnaire

Please provide some background information on your vehicle and your team that will be considered for inclusion in the event program. Do not forget to send a photograph of your entry! The questions below will help your thought process and get you started!

This information should be returned by **facsimile +61 8 8305 0245** or by post (with any photographs) to:

World Solar Challenge Office  
GPO Box 1972  
Adelaide SA 5001  
Australia

**THIS FORM MUST BE RETURNED BY 20 AUGUST 2001**

(If this form is not received in time, your team may not be listed in the program.)

Team Name ..... Sungroper Solar Car Association .....

Name of person completing this form ..... Craig Richmond .....

Contact ..... Craig Richmond .....

If you are visiting our country, what are you looking forward to most about coming to Australia? If you have been to the World Solar Challenge before, what did you like most about it?

N/A

What were the best and worst aspects of researching, developing and building your team car/cycle?

Best: Larning about all the different aspects of building a solar car

Worst: Procurement

How did you decide on the name for your vehicle?

Shay Telfer thought it up, it is a play on the name "Sandgroper" which is a slang for West Australians.

**How long has it/will it take from start to finish to build your car/cycle? How long did it take to research and develop the concept?**

Approximately 18 months from the initial idea to completion (as much as solar cars are ever completed anyway!). The first six months or so were spent on research and learning the basics of solar car design.

**Has your vehicle been “recycled” from a previous form? If so, please give details.**

No

**If you have been in the Event before, Please tell us when, and what do you remember most about it? Tell us about anything interesting that occurred en-route?**

N/A

**What attracts you to this event?**

The adventure of traveling across the continent through the center of Australia.

**Have you thought of any other uses for the technology that your team has developed in order to build your vehicle?**

**What do you aim to achieve by competing in the 2001 World Solar Challenge?**

Getting to Adelaide!

**How many members in your team? What are their usual occupations?**

Approximately 15. They have very varried occupations, but primarily in the computing fields.

**Tell us something else we may find interesting about your team, vehicle, or the organisation behind your entry.**

We are the first west Australian entrant into the World Solar Challenge.
